INDIA PRIVATE LIMITED

# About Us

Founded in 2000 by Late Mr. Karthikeyamanian with just four trucks, VJ Logistics set out to redefine logistics in India. Today, with over 350 GPS-enabled vehicles, we serve industries like automotive, FMCG, and healthcare. Guided by innovation and a customer-centric approach we deliver safe, timely, and tailored solutions. Excellence and reliability remain the core of our success story.

## Our Services

### Truck Transportation

We provide comprehensive truck transportation services with a fleet of 350 vehicles, including side-open, rear-open trucks, and trailers in various sizes. Our customized truck options ensure flexibility and reliability, catering to all transportation needs efficiently.

### Warehousing

Our strategically located hubs in Chennai, Bangalore, and Pune offer secure and efficient warehousing solutions, ensuring seamless storage and distribution for your goods.

### Outbound Operations

We specialize in outbound logistics with single car carrier trucks designed for OBL operations, providing reliable transportation across PAN India with assured truck availability.

### 3PL Services

Our Third-Party Logistics (3PL) solutions integrate warehousing, transportation, and distribution, supported by EV and diesel forklifts, toe trucks, and manpower, to streamline your supply chain operations effectively.

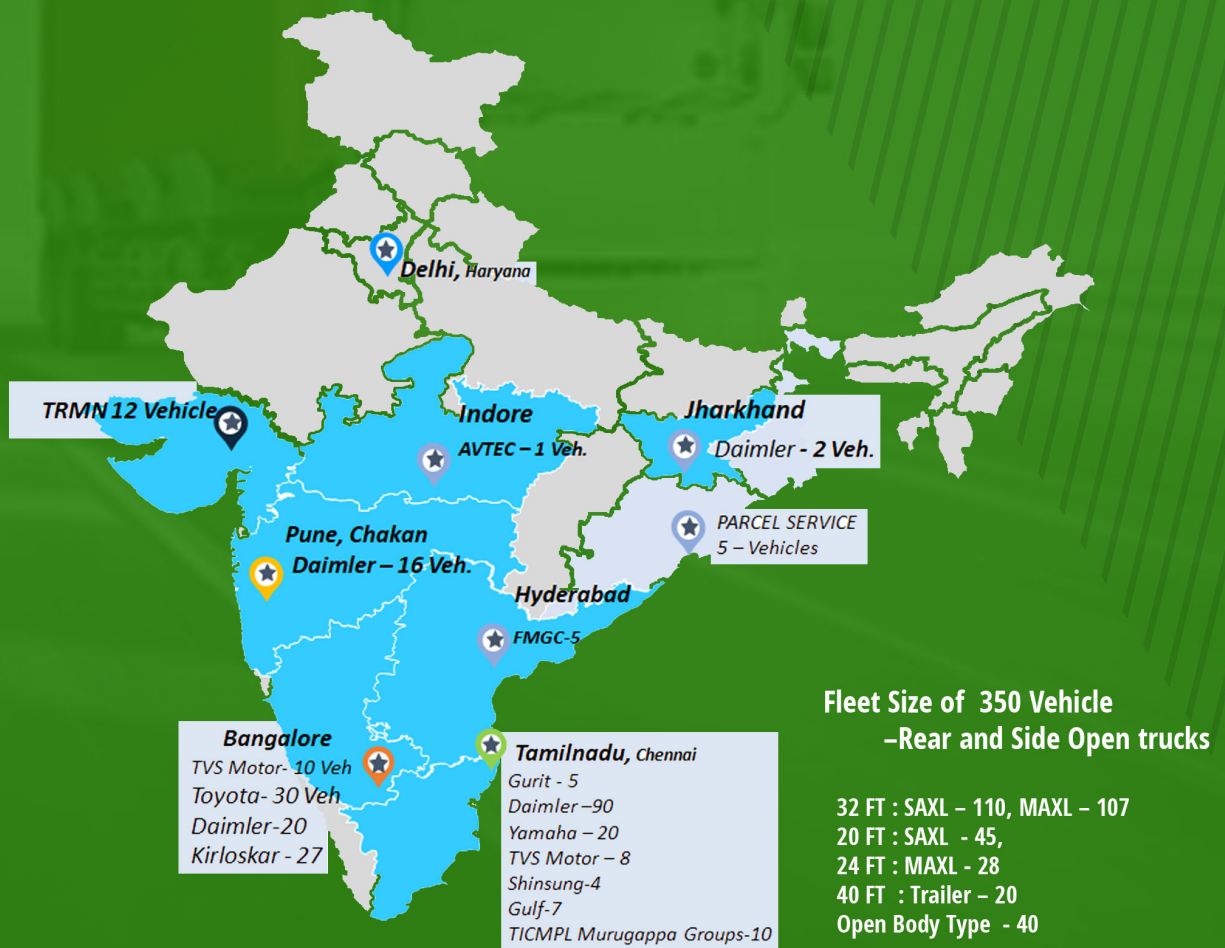

### Packaging Solutions

Our packaging solutions safeguard goods throughout the supply chain, offering customizable options like bins, pallets, and trolleys to optimize cost and ensure safe transportation of all cargo types.

# Why Choose Us?

- Access to over 5+ branches across India for seamless booking.
- Coverage of 1,000 km per day to minimize transit times.
- Double-driver facility for non-stop transportation.
- Real-time tracking available 24/7, ensuring transparency and peace of mind.
- Dedicated coordination and support from the nearest hubs, available round the clock.

## Our Operations Over India

# Our Vechicles

Our Major Key Strengths are Own Body Construction facilities based on Customer Customization Requirement.
